

I strongly appose NAB's petition 04-160. I utilize the XM broadcasts daily and only XM has been able to provide me with the variety and types of programming that I desire. When I am in areas that are covered by XM's Instant traffic and Weather I find it to be very beneficial. It allows me to better plan my travels and to prepare for potential weather issues. NAB has no right to dictate what I am permitted to hear. I respectfully urge the FCC to reject the petition and support XM's ability to provide me with the service I need.
